

Basic knowledge 3: Packaging: the final stage - packing Information

Description: Starting with the materials and fundamentals of welding, the fundamentals of barrier and MAP packaging are laid down. A brief overview of printing is a useful complement to the area of packaging as a kind of excursus. Subsequently, the filling processes are explained in principle and terms of the form-fill-seal system (FFS) with its variants h-FFS, V-FFS or T-FFS are discussed. General parts on the areas:
 - Specification
 - testing
 - food law
 round off this course. Graduates get a good overview of what to know about packaging films - before packing in practice - through the videos and presentations.

Target group: Anyone who wants a quick, detailed overview of film packaging.

Level: **Level 1** - no previous knowledge required

Further information: duration: 2:13h
 10 videos
 10 downloads
